Project Definition

“Pictures ”

Necessitem un programa que ens permeti registrar gent aficionada a la fotografia i que ens permetir votar fotografies de la resta d'usuaris.

Per cada fotògraf/a necessitem:

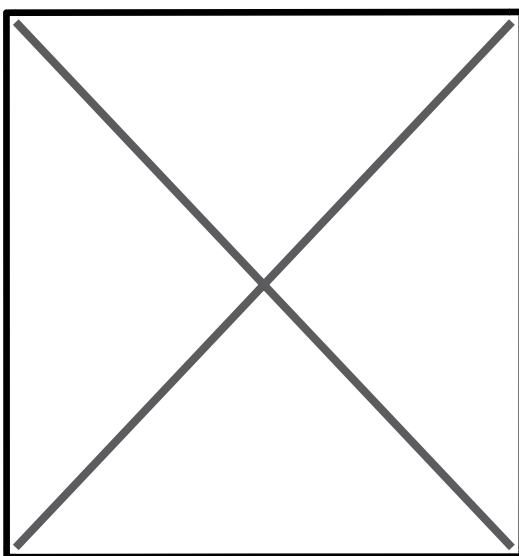

- Nom
- Cognom(s)
- Edat
- Dia de registre
- Total de fotos pujades
- Total de fotos votades
- Email de registre
- Password

Per cada fotografia hauriem de tenir:

- Nom
- Data de pujada
- Format de la fotografia
- Dimensions
- Resolució
- Etiqueta(s)
- Nota mitjana
- Autor/a

El sistema de votacions per cada fotografia funciona de la següent manera:

- Cada usuari/a pot votar **només una vegada** la mateixa fotografia.
- Els usuaris/es no poden votar les seves pròpies fotografies.
- Les votacions consisteixen en assignar un valor enter entre 1(més baix) i 5 (més alt)
- A més, es poden afegir comentaris a les votacions.

PHOTOCHAOS | style guide

The aim of this guide is to bring coherence across the project and standardize the different parts of the application. We try to use as much as possible Tailwind standards to avoid complexity.
